

April 7, 2015

To Chief and Council and the members of Chisasibi,

We the undersigned who work directly with patients for the Cree Health Board find that there is an urgent need for a Wellness Centre that offers traditional healing options to our patients. We feel this would be an excellent addition to the care provided in the community and we find there is a demand from our patients for this type of facility. Providing the opportunity to reconnect with traditional practices in an environment where people could go for moral support in times of crisis is, in our view, essential to improve the quality of life and care in the Chisasibi.

Sincerely,

Dr. Robert Tremblay

Ashley Martin Nursing coordinator

Capelle Leroy, t.i.m.

Kathleen Aubert, awwash team leader

Mireille Fiset, tenayo team leader.

Christine Nault Nurse Counselor /ecordo huash
